

PARTS LIST FOR PAINT SPRAY RESPIRATORS

WARNING

Severe or long term illness can occur if the wrong type of respirator protection is used. These respirators will only provide protection against certain kinds and limited amounts of materials. Never use these respirators for protection against:

- Paints or coatings containing isocyanate materials
- Asbestos containing dusts and mists
- Ammonia
- Acid gases
- Sandblasting
- Any material used in a closed or poorly ventilated area

A respirator must be properly prescribed and fitted to your needs. OSHA and industry standards require:

- A qualified safety expert or industrial hygienist select the correct respirator
- The correct respirator can only be selected after finding out the kind and amount of toxic materials to which you will be exposed

Read and follow the instruction manual packed in the box before you use the respirator. The instruction manual explains the proper use, care and safety precautions for your respirator. Read and follow warnings and instructions on coating material container.

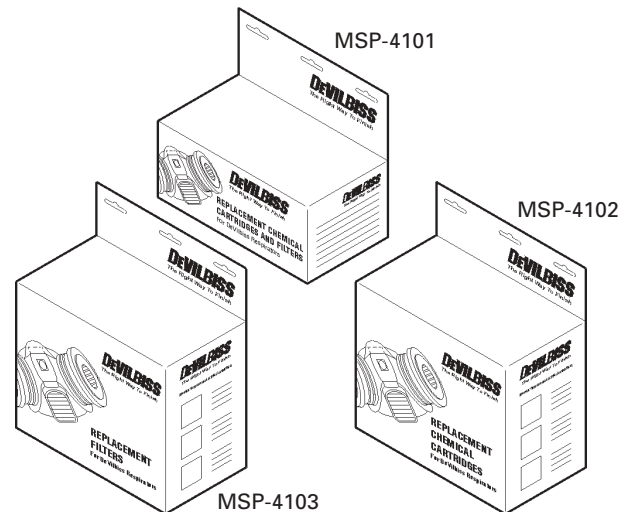

DESCRIPTION

MSP-523 (Small) Silicone - Half Mask Respirator
MSP-524 (Medium) Silicone - Half Mask Respirator
MSP-525 (Large) Silicone - Half Mask Respirator

These respirators are dual-cartridge, "silicone" respirators that can be used for spray painting, welding and pesticide applications. (NIOSH Approval No. TC-84A-1623). These respirators use the standard Devilbiss chemical cartridges (MSP-4102) and filters (MSP-4103).

(Silicone)
MSP-523
MSP-524
MSP-525

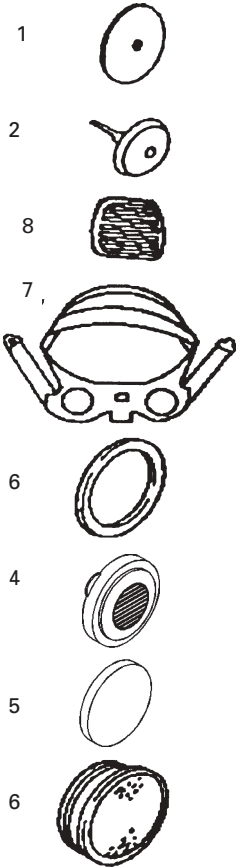

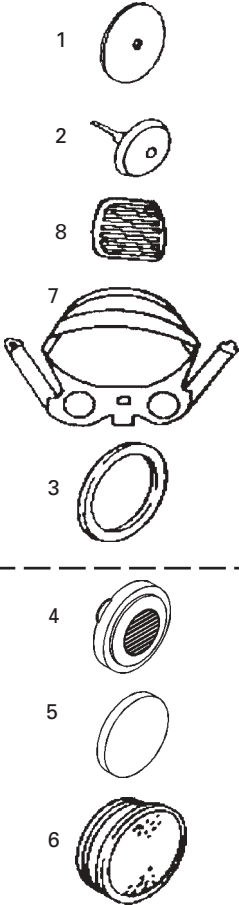

REPLACEMENT KITS

MSP-4101 Replacement Chemical Cartridges and Filters Kit has two replacement cartridges and four filters, supplied in a hanging package. It is suitable for small volume users.

For large volume users, order **MSP-4102 Replacement Chemical Cartridges Kit** (which contains eight cartridges and **MSP-4103 Replacement Filters Kit** (which contains 16 filters and 2 filter clips). Both kits are supplied in dispenser package cartons for convenient hanging in the work area to encourage timely cartridge and filter replacement.

REPLACEMENT PARTS

NEW STYLE	OLD STYLE (Discontinued)
<p>MSP-523 MSP-524 MSP-525</p> 	<p>MSP-510 MSP-511 MSP-512</p>  <p>MSP-520 MSP-521 MSP-522</p>
	 <p style="text-align: center;">-----</p> <p style="text-align: center;">To update old style respirators, use Items 4, 5 & 6.</p>

Ref No.	Replacement Part No.	Description	Individual Parts Req.
1	MSE-4-K10	Inhalation Valve Disc Kit	2
2	MSE-7-K10	Exhalation Valve Flap Kit	1
3	MSE-2-K2	Rubber Gasket Kit	2
4	MSP-22-K2	Pre-Filter Clips (Pkg. of 2)	1
5	MSP-4103	Filter Dispenser (Pkg. of 16)	1
6	MSP-4102	Cartridge Dispenser (Pkg. of 8)	1
7	MSE-9	Cradle Suspension	1
8	MSE-10	Exhalation Valve Cover	1

Suffix -K designates kits of multiple parts. Example: MSE-4-K10 is a kit of 10 discs.
